

Line 50
A method according to claim 46 wherein an antibody molecule directed to said peptide, or a mixture of antibody molecules directed to one or more said peptides, is obtained and is formulated into a composition comprising at least one additional component.

File 1126 51
48. A method according to claim 47 wherein said composition comprises a pharmaceutically acceptable excipient.

File 1126 52
49. A method according to claim 48 further comprising administration of the composition to a human.

REMARKS

The foregoing amendments are fairly based on the original specification and do not introduce new matter into the present application. Entry of these amendments is, therefore, respectfully requested.

Early and favorable action on the present application is earnestly solicited.

Respectfully submitted,

Patrick J. Hagan
